

Clark Forklift Attachment

Clark Forklift Attachments - Performing globally, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of lift trucks, with parts covering more than 120,000 specialized items for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark has a exceptional Parts Supply team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the globally accepted quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has preferred the very economical and advantageous structure of "Lean Production" for its assembly facilities and application of resources. This structure was established to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing expenses. The contemporary value engineering program combines progressive product improvement and offers superior customer support and service within the industry.
