

TCM Forklift Part

TCM Forklift Parts - In the global business of material handling, lift trucks play a major part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the United States, forklifts gained popularity after WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread globally.

Initially established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first forklift. Throughout the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation with the trade. TCM started building lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over fifty years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial trucks, making their models recognizable all around the world. With a strong and energetic employees, TCM has been able to constantly work towards becoming a future leading material handling business.
