

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the largest independent spreader producer around the world. They are a devoted maker of spreaders used for numerous several applications like for instance the trailers, handling of containers and swap bodies.

ELME now employs over 125 workers with all engineering is done in-house by utilizing all the newest FEM tools and CAD systems. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the world.

The product series of ELME comprise a lot of spreaders utilized for several trailer and container handling operations. Several of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers and a huge variety of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by way of utilizing top quality elements in order to guarantee reliability and excellent standards while offering reasonable prices. Major features of ELME consist of design simplicity, market response and innovative modular spreader concept.
