

Lull Telehandler Part

Lull Telehandler Parts - Telehandlers by Lull have been providing load placement accuracy ever since the year 1959. The Lull telehandler can really help make the job faster and easier, whether the work involves transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are complete together with the patented Stabil-Trak stability system so as to ensure operator confidence.

The horizontal placement system by Lull can supply eighty inches of boom travel for precision placement capabilities. There are also various optional Lull attachments for their telehandlers to be able to help complete whatever task.
