

Clark Forklift Parts

Clark Forklift Parts - At present, there are no less than 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized parts designed for 20 unique designs of lift trucks and automated equipment. Your local Clark Dealer is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very amazing intercontinental support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's relentless goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has chosen the system of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is designed to find and acknowledge the most effective ways for manufacturing facility stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The contemporary value engineering program combines modern product growth and offers superior customer support and service within the industry.
